

Regis University Institutional Animal Care and Use Committee Application

Regis University is required by the Animal Welfare Act to review and approve the use of vertebrate animals in teaching and research before that use can be implemented. To complete the review, the Regis IACUC (Institutional Animal Care and Use Committee) needs the information requested below. For your information, a good resource for animal care and use is the *Guide for the Care and Use of Laboratory Animals* published by the National Research Council. This book is available in the Academic Grants Office. Please return this application to the Academic Grants Office, H-4, Main Hall, Room 206.

Principal Investigator _____

Title of Study or Name of Class _____

Start Date _____

Date _____
Signature of Principle Investigator

Please attach your responses to the following topics:
