Description of Placement and Population Served: Arapahoe Douglas Mental Health Network provides a wide variety of mental health and substance abuse services, including individual, family, marital and group counseling, therapy, groups, psychiatry, emergency and residential treatment programs. As a private, nonprofit mental health provider for more than 55 years, we've been serving the children, teens, adults, seniors and families in our community — and beyond. We offer comprehensive, culturally inclusive behavioral health services. Our counselors, therapists, psychiatrists, case managers, benefits and housing specialists, and other specialized staff provide a wide range of services — including outpatient counseling and psychiatric services, emergency and acute care treatment, short- and long-term residential (inpatient) treatment, programs for those with severe and persistent mental illness (SPMI), and a host of other programs. Specialized offerings include our therapeutic day treatment school; programs for those struggling with bipolar disorder, grief, post-traumatic stress syndrome (PTSD), borderline personality disorder; intensive services and more.

Additional Placement Information:

Arapahoe/Douglas Mental Health Network's Internship Program is among the strongest mental health clinical programs in the state, with up to 30 interns training with us at any given time. Our program produces highly qualified students who are prepared to take on the challenging professional world. And because Arapahoe/Douglas Mental Health Network is a community mental health network, it has the resources and the flexibility to meet student-training needs while meeting the unique requirements of school programs Our training incorporates a wide variety of professional experiences. New professionals are encouraged to take on projects, interact within our comprehensive continuum of mental healthcare, experience leadership roles, and become an integrate part of our network. We encourage the development of proactive professionals who are able to advocate for their clients in this managed care environment. Interns have the opportunity to learn about multiple community organizations and concepts such as agency neutrality, level of care, integrated mental-physical healthcare, and community outreach.
