TAKE THE NEXT STEP

COMPETITIVE APPLICATION

As our applications to our BSN programs are highly competitive, we are looking at academic history, letters of recommendation, personal statements and health care/volunteer experience. We place the most amount of weight on academic history; your cumulative GPA will include all college-level courses and your science GPA will be calculated from the four science prerequisite courses. The science GPA will be calculated using the highest grade earned for each course. Both grades will be used to calculate cumulative GPA.

Application deadlines vary by program.

You have until the application deadline to submit your materials through NursingCAS. We recommend that applicants submit their applications early since it does take NursingCAS a few weeks to process your documents and verify your application.

GENERAL INFORMATION

Shadowing a Current Student

Due to the speed of the program, we do not schedule prospective students to shadow current students or attend a class. If you are interested in visiting campus, we'd like to invite you to attend an information session. We offer virtual and on-campus information sessions twice a month. During these information sessions, we discuss the three programs, requirements and prerequisites, the application process and answer any additional questions you may have. Attending an information session is also a great way to see the Nursing Skills and Simulation Labs. Please visit regis.edu/infoession for date and location information.

Health Care Ethics

Health care ethics is a prerequisite course for our BSN programs. The health care ethics course offered at Regis University is HCE 430, and is offered online every eight weeks. If accepted into any of our BSN programs, we can register you for this course for the semester prior to your start date.

Effective August 2019, the Health Care Ethics prerequisite must be an upper-division course from a regionally accredited college or university. Community college health care ethics courses will no longer be accepted as equivalents if completed after January 1, 2019. Students who complete an upper division health care ethics course at a regionally accredited institution outside of Regis University must also complete an online module through Regis to receive full credit for transfer. For questions, please contact your admissions counselor or the Office of Admissions at ruadmissions@regis.edu.

UNOFFICIAL TRANSCRIPT EVALUATIONS

Request an Evaluation

Do you want to know if courses you have already taken will transfer as prerequisites for our BSN programs? Follow the steps below to request an unofficial transcript evaluation:

Please send copies of transcripts from all colleges and universities attended. Transcripts must be in PDF format and emailed to unoffeval@regis.edu.

Indicate that you would like an "unofficial evaluation" and the name of your program of interest. Include your name, phone number, email address and mailing address in your request.

DON'T DELAY. APPLY TODAY.

Visit NURSINGCAS.ORG to start your application today.
